# Reporters Gotta Have Fleet Feet As Well As Mental Sharpness

By Bob Rasmussen

When a weekly White House press conference is held, James Barrett Reston is just one of 300 reporters throwing questions at President Eisenhower. But when OU held a Coffee Hour last Friday, James Reston was in the limelight.

Scotty, as his close friends call him because he's Scotch, chatted about all sorts of interesting subjects in the OU Press-Club-sponsored discussion.

Besides noticing that Scotty likes lots of cream and sugar in his coffee, students also found that a reporter has to be a pretty shrewd person to be a Washington reporter.

## Picture Taking

Reston, Washington Bureau representative for the New York Times, stated that over 300 newsmen are jammed into President Eisenhower's office for a press conference. The president enters the room and spends about three or four minutes with photographers who snap his picture for newsreels and local papers. Following the pose for photographers, the president announces to reporters what he would like to talk about.

An open period of questioning follows, with reporters firing questions at the president ranging from his golf game to price controls to the prospect of a meeting with Joe Stalin.

## Question Period

This question period usually lasts about 30 minutes and then reporters rush out of the meeting for the telephones to get the news back to the newspaper offices.

The phones are usually rather crowded because there are only 12 phones to accommodate 300 men who all want to use them at the same time.

## Korean Situation

When quizzed about the Korean War, Scotty stated that he felt there would be little expansion of the war. He also stated that he felt the United States fighting forces would be gradually replaced by trained South Korean soldiers. When asked whether he thought Truman was right in his initial action on the Korean War, Reston said that he thought Truman had no choice, but he should have consulted Congress. "But," he added, "if anyone thinks that the present world situation is temporary, they will be very disillusioned."

## OU Offers Tours to Mexico As College Credit Vacation

Polish up your Spanish and get out those gay Mexican costumes. The University of Omaha is offering students a vacation to Mexico City and the Southwestern Pacific Coast. And it's for college credit.

## Russia on Defense

Speaking on the United Nations, Reston felt a new criteria had been set at this latest session. He explained by saying that in previous UN meetings Andre Vishinsky would make charges against the Allies, and the Allies would spend the rest of the sessions denying the Russian charges. "However," Scotty explained, "in the latest session, with Vishinsky denouncing the India plan for settlement of the Korean War, the tables have been turned. Now Russia, which has always been connected to Asiatic opinion, will have to do the denying and explaining of her stand on this international question."

Reston's discussion concluded on the question of his opinion of commentators like Drew Pearson and Walter Winchell. Reston, without batting an eye calmly stated that he felt "there will always be a place in the world for prophets."

Plans are now underway for two such tours. The "long" tour will take 24 days and earns the vacationers three hours of college credit. Approximate cost of the tour will be \$260 for transportation and lodging. Students will travel in chartered air-conditioned Greyhound buses in the United States and in American Air Lines and Mexican buses while in Mexico. Reservations will be limited to 36 persons.

## 14 Day Tour

The short tour will cover 14 days and will earn two hours of college credit. This tour costs about \$155 for transportation and lodging. This shorter tour will be limited to 10 persons unless more than 35 persons show interest in the trip.

Both tours will start out from Omaha on Tuesday, July 28. The buses will pick up additional passengers in Fremont and Lincoln. The actual sightseeing part of the tour will begin in San Antonio with visits to the Alamo and the Spanish Governor's Palace, plus other interesting sights.

## On to California

The long tour will remain four days in Mexico City. After leaving Mexico City, the tour will go on to Los Angeles for two and one-half days, seeing among other things, Catalina Island, Pasadena and Hollywood. The tour then will go to San Francisco and return to Omaha via Salt Lake City and Cheyenne.

The short tour is the same as the long one to Mexico City, but will remain six days in Mexico City and return to Omaha via Monterrey, Laredo, Dallas, Tulsa and Kansas City.

## Early Reservations

A down payment of \$100, with request for reservation on either tour must be made by April 15 and the last payment must be made by July 1. Payments may be made out to Elja McCullough, tour conductor, in care of the University of Omaha. Refunds will be made if reservations cannot be claimed.

## Early Briefing

Tour members must take the course for credit or audit it, paying the fee required for credit by the University. Briefing for the trip will be held on Saturday, July 25, at OU.

If anyone wants further information write Summer Session, College of Adult Education.

Dana College, Blair, Nebr., is also offering the "Vacation Course."

## Bon Voyage!

The Wardles are leaving the country! Ralph Wardle, English department head, will take his family to England this summer.

Dr. Wardle will do research on his projected biography of Oliver Goldsmith, 18th century poet, novelist and dramatist.

## A Deadly Bargain . . .

"I'll give you five points for the little lady crossing the street" offers your passenger.

"I'll take it." You grin and threateningly turn the car toward the little lady crossing the street.

You swerve in time. You always do. Or at least you think you always will.

You may never receive your "five points" from your passenger. But the police will be more generous if you accidentally complete the bargain.

## Why?

Because Safety has reached the "Do or Die" stage in Omaha.

There is a proposed law before the legislature now. Under this law, you may earn only 12 "bad" points in two years. These points mount up fast. You get 12 points for third offense reckless driving, drunk driving, or motor-vehicle manslaughter. You earn four points for speeding and three for offenses of less serious natures.

The restrictions and severe penalties will take away your driver's license and even your car.

This is the penalty from state and local safety officials.

But something else has happened. Omaha citizens have noted the driving habits of University of Omaha students. Citizens are backing stiff penalties because of a steady, reckless, swift-moving stream of cars, weaving through early morning traffic going west on Dodge street. This condition has been noted at Dodge and Happy Hollow by an Omaha businessman every morning between 7:45 and 8. He has reported this to school officials.

The University has been asked to support the Drive for Safety campaign. As citizens of Omaha and intelligent individuals we must cooperate. As University of Omaha students, we represent the University in every thing we do.

Remember, too, University professors have stated that they would rather have you walk into class a few minutes late, than never have you walk into class again.

## Garlough Uses New Classroom Methods

Dr. L. A. Garlough has a unique method of teaching evolution. In the past few years, Dr. Garlough has imbedded different species of insects in plastic blocks so the students may study them. Now he has devised a scientific checker game using the blocks.

In the center square lies the primitive or non-specialized insect. Radiating from the center are blocks showing the development of specialized insects such as the flying type, surface or walking type etc.

Students are given the primitive and are to place graduating species in line to each of the most specialized insects.

"Man can be represented by the primitive insect," said Dr. Garlough. "He can have specialized individuals but man as a whole can do anything. We are not limited to flying, walking, swimming nor boring underground." He also affirmed it was best to be primitive.

# OU's Bid Halted By Chadron Five

For the second straight year Chadron State Teacher's College stopped Omaha University's basketball team from a possible NAIA playoff berth.

Chadron took advantage of a fading Indian five Monday night at Grand Island and came up with a surprising 74 to 61 victory.

## OU Takes Early Lead

Sparked by Bob Mackie, the OU squad jumped to an early 11-1 lead. But Chadron refused to quit, and they soon tied the score at 15. Omaha broke the tie, and at the half the Indians held a slim 28 to 27 edge.

But it just appeared to be Chadron's night, and as the teams started the last 10 minutes, the Eagles were ahead 47 to 44. Bub Larsen and Tom Shoud were two of the reasons why the OU five had so much trouble. Larsen dumped in 20 points, Shoud followed with 19. Both boys handled themselves well under the boards. To add difficulties, guard Bob Cook dropped in 15 points.

## Mackie "Outstanding"

Mackie was the big playmaker for the Indians. He played an outstanding floor game aside from the fact that he had 23 points. Bob fouled out with 3:35 left in the game. Fred Shinrock did the same at 2:55. One minute later Don Claussen, who was held to 12 points, was ejected from the game for arguing with an official. That left only two of the starting five in the game.

So the anticipated Nebraska Wesleyan-Omaha University play-off for Nebraska's berth in the NAIA will not be possible.

Coach Virgil Yelkin's basketball team has completed the best record since post-war days. They had 11 wins and two losses at home, and an overall record of 15-7.

# OU Trackmen Train for Meet

Trackmen held a meeting recently and picked seniors Joe Nalty, Larry Johnson and Doug Alford as candidates for team captain.

Track Coach Ernie Gorr announced that an inner squad meet would be held next Monday or Tuesday. The entire group of trackmen have been divided into two individual teams, headed by Nalty and Johnson.

Baseball is his strong sport, and he has had plenty of experience

# Sig Ep Leads Sweepstakes

They have accumulated 865 points, earning them by winning the touch football title, winning the Interfraternity Volleyball crown, placing second in the Intramural Volleyball meet, winning the second place A-team division in basketball, and finishing second in the B-team Basketball League.

The race is far from being decided because there are several spring sports yet to be played.

# Indians Tally 82-71 Against Morningside

Led by Big Don Claussen's 35 points, the OU cagers scored a repeat victory over Morningside, 82-71, Friday night at Sioux City.

The tall center was a constant threat to the Maroons. He made 12 field goals and cashed 11 of 13 gift tosses to take game scoring honors.

The win was the first time in Post-World War II history that OU has beaten the Maroons in Sioux City.

Morningside hopped to a quick 6-0 lead, but the Indians came roaring back to lead 19-14 at the quarter. However, the Maroons fought back for a 22-20 advantage two minutes later. But that was

their last lead of the game.

## Indians Set Fast Pace

Playing their usual fast-break game, the Indians held a 37-30 intermission margin. They moved the seven-point lead to 56-44 at the three-quarter mark.

For the last five minutes of the play, Coach Yelkin swept the bench and the subs saw considerable action.

Fred Shinrock, Bob Moscrey, Bob Mackie and Bob Rose gave Claussen plenty of support although the foursome often appeared more content to pass to "Mope" than to try for points.

## Shinrock Fouls Out

Shinrock, however, drew foul number five with three minutes of the final stanza gone. Mackie, a star in the game played in the OU Fieldhouse earlier during the season, was fighting a cold and saw limited action. Shinrock and Mackie finished the evening with ten and nine points, respectively.

Dick Norman was the big gun for the Iowans as he racked up 19 points on seven field goals and five free throws to lead the hosts scoring.

Center Ray Knauer, Maroon ace boasting a 20-point average, was held to a pair of field goals and two free throws by the tight OU defense.

## OU Torrid at Line

The Indians were outscored from the field 27-26 but made 41 per cent of their shots to Morningside's 30 per cent. However, outstanding free throw accuracy turned the tide for OU.

The victory was the fourth straight for the Indians and they finished the season with 15 wins against seven setbacks. However ever five of the losses were suffered on the road.

In the season scoring column Claussen has set a new OU scoring record with 380 markers.

Second, third and fourth places are held down by Mackie with 327, Rose with 216 and Shinrock with 170 points, respectively.

# If Interested in Golf, Report to Campbell

Golf tryouts will be held in the Fieldhouse today at noon. Coach Johnny Campbell wants everyone who is interested in the sport to come over.

"We will give everyone a chance. It shouldn't take long and the first to come will be the first to tryout."

Some of the hopefuls for the coming season are Dean Wilson, Jerry Norene, Fred Shinrock, Bob Claussen, Archie Templeton, Bill Campbell, Charlie Martinson, Charlie Stilwell and Don Byers.

Wilson, Shinrock, Templeton and Norene, returnees from last season, should all better their former marks, according to the boys.

Archie Templeton said "I've been out a couple of times this year, but my clubs seem to have grown longer."

There are 97 known veterans going to school days, including both men and women.

Bob passed up football at the University, and, because of his professional contract, he cannot play baseball. So Moscrey puts all his talents into the University's basketball team. This is his third year on the varsity squad, and all of Omaha's opposition know Moscrey for his deadly long shot.

Bob is a junior majoring in physical education. Upon graduation he will serve with the Air Force. After his hitch in the service Bob plans to play professional baseball. Omaha fans should keep their eye on Moscrey, because with his experience and ability, his future in baseball appears to be bright.

## Sign Up Now

All students interested in spring tennis should report to the Fieldhouse to sign the team roster, or contact Fred Pisasale, tennis coach.

Pisasale has hopes for a victorious season, and wants anyone interested to start practicing early enough to prepare himself for a jam-packed season. "I think that we should have a talented team which will prove tough to beat in any league."

# Sports Staff Picks Mural Basketball All-Star Teams

## Five Squads Represented

By Larry Means

The Gateway sports staff has selected a first and second team All-Star basketball lineup from the Intramural competition.

The first and second place teams in the league, Pawnees and ROTC, placed six men on the mythical All-Star squad. Of the four remaining posts, Sig Ep copped two, Pi Kappa Alpha one and Theta Chi, one.

Orville Jensen, a smooth guard from Pawnees, landed the only berth for his team on the varsity squad. In the final game of the year against ROTC he scored 16 points to lead his crew to victory, and to the championship.

### Meyer Agile Under Boards

Bob Meyer, a sharpshooting forward from ROTC, provided the power for his potent squad throughout the season. His agility under the boards and at the line was the turning point in many games.

Pi Kappa Alpha, Interfraternity champs, is represented by versatile guard, Aksel Schmidt. Aksel was a leading scorer as well as a constant thorn in the competitor's side.

Bob Chapman of Sig Ep takes the second guard position for his versatility and enthusiasm. In many games he proved to be the deciding factor with his rebounding and scoring. He had an individual scoring mark of 28 points in one game.

### Maseman 'Best All-Round'

Don Maseman led the Theta Chi crew through a dismal season. The freshman studded squad was inadequate in the face of some of the more experienced squads. Don's individual performances were always the best in the tourney. He led the team in rebounds, scoring and had the least number of personal fouls. Don's popularity with opposing teams warrants his being voted best all-round player. He takes the key position on the All-Star squad in lieu of his excellent play formations with Theta Chi.

The second team consists of guard Dan Peterson, tall rebounder from ROTC; center Bernie Lainsen, also of ROTC, who showed a knack for fast breaks and hook shots; Lowell Zeplin, forward from Sig Ep who was a high scorer and good rebounder; Dick Cotton, guard from Pawnees who moved his frame with the agility of a cat to score frequently; and Harry Johnson of Pawnees. Harry was a good team man as well as a sharpshooter.

### Honoraries Chosen

Many top flight athletes were contending for honors. Three who should receive recognition are Roger Orr, Jim McCart and Dick Kimball.

It was one of the most popular seasons for Intramural competition with clean playing from all squads. We congratulate Ernie Gory, Fieldhouse Intramural director, for his able management and smooth working schedule.

## P. E. Majors Champs Of 'Mural Volleyball

P. E. Majors won the intramural Volleyball Round Robin Tournament held in the Fieldhouse last week. They went undefeated against four opponents and had trouble only with the runner-up team, Sigma Phi Epsilon.

The game between these two teams pitted such outstanding front line men as Bob Offerjost for Sig Ep and Ralph Pettit of the winners.

The P. E. Majors dropped the first game of the championship tilt, but they won the last two to earn the crown.

### Final Standings

## ROTC Champions 'Mural B League

The ROTC defeated Theta Chi 29-22 last Thursday in the Intramural B Team League to win the title of that division. They completed the season unbeaten, with a 5-0 record.

The ROTC win shattered the hopes of the Sig Ep B team, which finished with a 4-1 standing and could have tied for first if Theta Chi had downed the ROTC.

Stan Tuber potted 12 points, and Bob Byrd made six for the winners.

Jack Fraenkel, with eight points, and Ken Guthrie, with six, paced Theta Chi.

Gary Anderson, captain of the Pi Kaps, turned in the day's high individual score of 201 and also had the top series score of 530.

## Alpha Xi A Tops Women's Bowling

The Alpha Xi Delta A team continued to lead the OUWI bowling league this week.

Chi Omega is the titleholder of both the high team game and the high team series with 561 and 1,490 points, respectively.

Corinne Houser, Chi Omega, holds the high individual series with 440 points and the high individual game with 181 points.

### League Standings

N.I.S.A.	23	33
Zeta Tau Alpha	23	37
Independents	19	35

On the bowling alleys this week Chi Omega won three out of three games from Kappa, while Alpha Xi A won three out of three from the Chi O Owls.

Gamma Mu won all three games from Alpha Xi B, Sigma Kappa took two out of three from N.I.S.A. and Beta Tau Alpha won two out of three from Independents.

Pi Kappa Alpha basketball players won their second consecutive Interfraternity championship last Thursday with a 49-41 triumph over Sigma Phi Epsilon. They won the title last year from Theta Chi.

The game was close all the way. The score does not indicate how close it really was. The teams were tied 8-8 after the first quarter. Sig Eps took a 17-13 lead near the end of the second frame, but the Pi Kaps rallied to tie 17-17 at the half.

The winners held a five point margin midway through the third period, but they led only 33-32 going into the final eight minutes. They tallied 16 points to insure the victory.

With three minutes left, Pi K A owned a four point advantage, and they stalled. Sig Ep players, in a do-or-die effort to get the ball, fouled three times and the Pikes made four of the free throws to increase their winning margin.

Aksel Schmidt, enjoying one of his better days, fired 18 points to lead the Pi Kaps. Dan Peterson made 11, and Harry Johnson dropped in eight.

Peterson again was a giant under the boards, and Johnson engineered the stall in the final minutes.

## Independent Living Prompts Some Pay Check Skrimping

Do you think that you'll be able to live on your first paycheck when you're out of school? That goes for those who work in the summer or those college graduates who must begin working 50 weeks a year.

## Duncan Hines Will Shudder At Crazy Food Concoctions

It seems whenever a crowd of people get together, someone always comments that his stomach has been acting up, he feels nauseated and can't get rid of the gas on his stomach.

Maybe it's something that can't be helped, but then again maybe it's something he ate the night before. A look on the menu at the concoctions which people eat might turn many persons' stomachs without eating a bite.

### Lemon Rice Soup

For his favorite dish, the poor fellow may have eaten a reuben sandwich; sauerkraut, cheese and corned beef on rye bread toasted. Or he may have just downed some lemon rice soup; egg yolks, beaten egg whites combined with lemon juice, broth and rice. Be careful of this dish, if you don't stir it fast it may curdle. If it doesn't agree with you the first time, try it again, you become immune to it. And for your potatoes, never forget lots of catsup.

For just a favorite, the guy may have eaten a dish of sauerbraten; beef, onions, bay leaves, pepper, corns, raisins, ginger snaps, thick sour cream, with salt and pepper added for good measure. Or he might eat stufato; onions, meat, spice, wine or vinegar all steamed.

### Grape Catsup

He might have eaten sweetheart salad; a can of crushed pineapple, or surprise meat balls (in each

and every meatball, a prune and stuffed olive.) Or just for kicks he might have tried the dish that is recommended to all track men to give them that get up and go, grape catsup. A plain hamburger sweet potato pie might have filled his appetite.

For dessert he could have had a simple dish of chocolate ice cream with butterscotch topping or vanilla ice cream covered with grape juice. These dessert dishes are becoming more popular in cafes.

Just one of these dishes is certainly guaranteed to satisfy the appetite for a while, and some of them might even satisfy the appetite permanently.

We need not concern ourselves much about rights of property if we faithfully observe the rights of persons.—Calvin Coolidge.

## Magazine Suggests Better Handling of Phonograph Record

If you haven't been getting the best tone quality from your phonograph records, or if you grab the platter and toss it here and there, you'd better read a few of these "do's" about phonograph records.

Coronet Magazine has compiled a few hints to better record playing. The first rule should be applied before playing. The magazine suggests you wipe each record lightly with a soft, slightly damp cloth to eliminate static electricity and dust.

There are only two ways to handle a record; by the edges or by one edge and the center. Never put your fingers on the grooves.

Try to set the needle arm down as lightly as possible on the ungrooved edge. It will save the needle as well as the record. Your record albums should be stored vertically. Single records should be kept either vertically or in flat stacks, but always covered.

Sliding records against the record jackets will dull the ridges and the tone. Always try to buckle the jacket when inserting or removing the discs.

Clean the needle with a medium-soft brush after every few hours, or with your thumb.

If these few rules are carefully followed, Coronet says that your

## Snow Disrupts Dancing Girls

The weather has continued to jinx student organizations traveling outstate for performances and meetings.

The debate team has had to cancel several trips because of snow conditions. Orchestras, national honor dance group, ran up against the latest difficulty when the weather played havoc with concerts at Rosalie, Fremont and Norfolk, Nebr.

The 11 girls were up at 4:30 Monday morning prepared to leave for the daylong trip. After they met downtown, the girls learned that roads were impassable but would be cleared later in the day. They had to cancel the Rosalie show, but still scheduled the Norfolk and Fremont performances.

They decided to travel by bus, but when they reached the bus depot, they were being paged on the PA system. The message was a long distance call from Norfolk canceling the afternoon performance.

The girls decided to return to OU and attend morning classes. They planned to leave in the late afternoon to Midland for the Fremont show.

When the girls got to Fremont, record listening will be more enjoyable and your records will last longer.

## Physics Prof Makes 'Bobs'

CAUTION! This Thyrode has a very thin wall. DO NOT SQUEEZE! Is this the warning sign over a mighty instrument of science? Is this a warning to movers of a new kind of fragile dog house? No, it's the legend on the wrapper of a mailing tube.

Inside the tube is a new counter tube for the physics department's radiation counter. Professor J. G. McMillan carefully opens the tube, gently takes hold of the tube in two fingers, and crushes it.

After the air cleared his comment was, "I teach three classes in atmospheric and I can't even get a vacuum tube out of a carton. Also, that tube cost eight dollars, and I didn't even get a peep out of it."

Who knows? Can professors be human too?

further complications set in. The girls hadn't anticipated spotlights, so they had brought no stage makeup. When they found spotlights were to be used, they had to paste natural makeup on their faces.

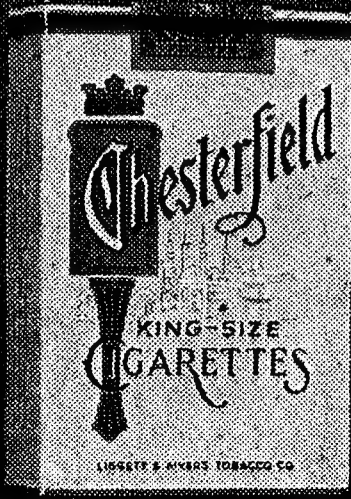

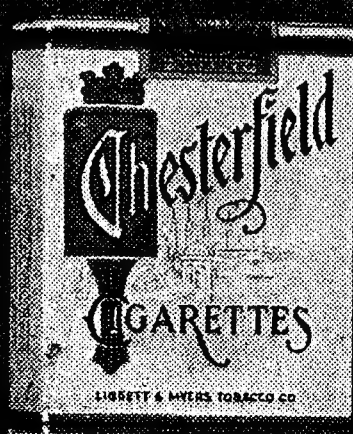

The bus left immediately following the performance, leaving them no time to remove the makeup. With inch-thick lipstick, black mascara and powder ready to be peeled off their faces, the girls arrived in Omaha "late" Monday evening.

"I've been saying it for 6 years now—and I'll say it again... much milder Chesterfield is best for me."
